

Problem Solving and Decision Making

Develop your creative tool kit for overcoming obstacles and challenges through innovative problem solving techniques

Who is it for?

If you are involved in project planning, management, creative work or a role that requires you to solve problems, then this workshop has been designed for you.

Overview

Creative thinking makes problem solving fun. This ilm Unit provides delegates with the tools and techniques to substantially enhance their personal performance in both creative thinking and solving problems. It will illustrate how to solve problems through practical exercises and team work. At the end of the workshop, delegates will be able to generate innovative ideas and solutions to problems. They will recognise their lateral and logical abilities and gain self confidence to deal with day to day issues, problems and challenges.

Programme Objectives

- Identify and describe a problem, its nature, scope and impact.
- Gather and interpret information to solve a problem
- Apply a range of creative thinking tools.
- Apply a six step problem solving technique.
- Evaluate options to make best possible decision.
- Test ideas for practicality and relevance.
- Plan, monitor and review the implementation of the solution.

Investment

Total investment for this one day workshop is £180 per person. Alternatively, this programme can be delivered internally to your organisation for a total investment of £1400, irrespective of how many delegates from your organisation attend. This cost includes all relevant materials but excludes any costs associated with the venue.

ilm Accreditation (optional)

For an additional investment of £219.00 per person, and on successful completion of this workshop and associated action plan, the Institute of Leadership and Management (ilm) will acknowledge the participant through the ilm Level 3 Unit Qualification.
