

Resource UK Leadership Programme

The Resource UK Leadership Programme provides an intensive introduction to the world of people management, focusing on achieving results with and through people. The programme is highly practical - the return on investment starts the minute the delegate re-enters their working environment. Two key features of the programme are the opportunity each delegate has to work with a personal coach to maximise personal effectiveness back in the workplace, and the implementation of a change/improvement project that makes a difference for the organisation, providing a measurable return on the investment made.

The programme is delivered through ten modules over a period of 15 months, providing a range of leadership and management tools and techniques, enabling delegates to competently and confidently become an effective leader.

In addition to the delivered content, delegates will have the opportunity to visit the individual companies within the Resource Group and gain an insight of the diverse ranges of products, services and culture across the group.

Delegates also have the option to work towards the ilm Level 5 Qualification in Leadership and Management qualification.

The ten modules are:

Interpersonal Intelligence

Personal Effectiveness

Becoming an effective leader

Communicating with clarity

Collaborative Problem Solving

Enhancing individual & team Performance

Resolving conflict & holding people

Project Management

Presenting with confidence & impact

Making a Difference
